January, 2001 represents the genesis of the Metro/South Los Angeles POWER Collaborative Network under the general directives of the Department of Public Social Services' (DPSS) and the Workforce Initiative Act. The outcome is to strengthen the strategies for making job and training opportunities more readily available in the southern LA county region.

The POWER Collaborative Network initiatives and deliverables integrate client service providers, employers and job seekers in collaboration with government, local education, training institutions and nonprofit community service organizations.

The POWER Collaborative Network meets the first of the month and rotates locations to various agencies. Information on job recruitment, funding, training and projects are discussed in the meetings. Support for the collaborative is received through in-kind services from the member agencies. Please submit your e-mail/fax number to receive future meeting notices.
