January, 2001 represents the genesis of the Metro/South Los Angeles POWER Collaborative under the general directives of the Department of Public Social Services' (DPSS) and the Workforce Initiative Act. It serves as an economic and workforce development collaborative operating in the Metropolitan and South Los Angeles areas to build comprehensive economic and workforce development strategies. This helps with making job and training opportunities more readily available in the Metro/South Los Angeles region.

The POWER Collaborative initiatives and deliverables integrate client service providers, employers and job seekers in collaboration with government, local education, training institutions and nonprofit community service organizations.

The POWER Collaborative meets the first of the month and rotates locations to various agencies in the South LA area. Information on job recruitment, funding, training and projects are discussed in the meetings. Support for the collaborative is received through in-kind services from the member agencies. Please submit your e-mail/fax number to receive a meeting notice and agenda.
