In a geographical area that has considerably more people than available jobs, it becomes more than a regular challenge to place potential & qualified job applicants into positive positions. Creativity & persistence are paramount skills for helping people seeking job opportunities, which is why we pause to recognize the notable job development specialists who are actually CHOREOGRAPHERS OF CAREERS.*

*A tribute for their outstanding ability to integrate marginalized citizens into productive community life by helping to enhance new business opportunities, improve local health and service delivery outreach, and to promulgate enhanced conditions for all people living & working in the region.*
